5. Enrollments in part-time doctoral studies are carried out by the Enrollment Board established by the Rector. The Enrollment Board consists of three representatives of the organizational unit conducting doctoral studies in English. By way of an Order, the Rector appoints the Board's Chairman, who is authorized to sign administrative decisions issued by the Board, on its behalf.
6. Before the beginning of the enrollment procedures the Enrollment Board established by the rector will run an interview on Skype to verify the command of English with the candidates holding required certificates.
7. The enrollment procedure is carried out by way of competition. During the enrollment process, the Board familiarizes itself with the documentation prepared by the candidate. The artistic/design and scientific and research output, as well as the proposed subject and scope of the doctoral dissertation are evaluated without the candidate's presence, based on the complete set of the electronic documents required.
8. The Board evaluates the following enrollment procedure elements:
 - portfolio (artistic/design and scientific and research output) 0-10 points
 - proposed subject and scope of the doctoral dissertation 0-8 points
 - recommendation 0-8 points

The candidate can score a maximum of 26 points.
A candidate who scored less than 13 points cannot be admitted to doctoral studies.
9. The score obtained during the enrollment process is decisive for admission to the studies. Based on the existing limits of places, the Enrollment Board takes decisions on admission to the studies of those candidates who obtained the highest score, not to be lower than 13. An appeal to the Rector can be brought against the Enrollment Decision within fourteen days of the decision being received.
